

# SIEMÀN

## DOPPIO GIOCO - 2022

### **GRAPE**

*TURCHETTA, BARBERA, TAI ROSSO*

Cultivated on calcareous soil: sand, clay and silt.

### **VINIFICATION**

The harvest was during the first half of September. All three grapes are harvested in the same time.

The fermentation occurs spontaneously in steel with the yeast of the grapes themselves. 50% of grapes vinified with the stalks, the other 50%, classic red vinification.

Steeping on the skins for 10 days.

### **AGING**

Aging in oak wood.

There are no enological additives.

Vinified and bottled without any further processing or filtration. Being that the wine is not filtered there may be some sediment on the bottom, this just indicates the genuineness of our product.
